

## Pelikan Special Edition Eternal Ice Fountain Pen

Pelikan once again pays homage to our stunning planet by creating the unforgettable Eternal Ice fountain pen. In this new special edition, they offer an impressive writing instrument that honors a breathtaking natural phenomenon. The broken ice patterns are laser-etched and coated with a beautiful layer of Palladium. The ring, clips and surface is lacquered prior to multiple polishing so that the pen glitters and gleams like true ice. This pen is piston fill only.

## Featured Pen PELIKAN DEMONSTRATOR 1005 SPECIAL EDITION \*MUST SEE\*

When Pelikan first patented the piston mechanism in 1929, no one could have foreseen how the technique would be such a runaway success. The Special Edition Demonstrator 1005 is the largest and most impressively sized Pelikan fountain pen to date. It was created with a completely translucent barrel to ensure that no color particles enter during the production process. Each pen is shipped nestled inside an attractive gift box. Note: This pen is only available in limited quantities.
