

## Namiki Falcon Fountain Pen

Sleek in its unique style, this jet black fountain pen is a remarkable feat of engineering and elegance. It has a large assortment of beautiful features, but its most extraordinary one is its flexible, “hooded” nib. The nib was designed to have a soft, flexible feel when writing that conformed to the user’s writing angle. The fountain pen has a 14k Gold nib available in soft fine, medium and broad.

## Retro51 Tornado Bamboo Rollerball Pen

Rainforests only cover about 2% of the world’s surface, but they support nearly half of the life on earth. With your purchase of a Bamboo Tornado, Retro 51 will make a donation to the Arbor Day Foundation to rescue 250 square feet of rainforest habitat. This foundation is a nonprofit, conservation and education organization with nearly one million members whose mission is to inspire people to plant, nurture and celebrate trees. The barrel of the Bamboo Tornado is available in either Ebony Bamboo or Natural Bamboo, each a fast-growing, renewable wood that is beautiful, strong and plentiful. Note: As each pen is made from bamboo wood, the texture of each one will be different. The picture is just a representation of the design.
