### Quality Assurance from Laban

Laban is committed to the manufacture and worldwide distribution of Laban pens and mechanical pencils that are of a singular high quality. Laban writing instruments are of a good value and are designed for a lifetime of use and writing pleasure. To that goal, Laban has invested in top quality materials, the latest technology for its manufacturing processes, coupling these with Old World Craftsmanship and stringent quality control. Laban proudly uses fountain pen nibs from Peter Bock AG of Heidelberg Germany, the premier nib manufacturer in the world. The high quality acrylic resins, brass and precious metals with Laban's artistic flare and artisan care, are fashioned into the striking designs you see in today's Laban writing instrument lines.
